 **MONDELIN**

MONDELIN FRENCH MANUFACTURER

For over 72 years, Mondelin has been designing and manufacturing reliable, robust and innovative hand tools and equipment for the construction industry.

«We continue to develop our range of tools and to work on new innovations, while maintaining what is essential to us : the relationship that has always connected us with the craftsmen in their construction sites.»

TOOLS DEVELOPED WITH CRAFTSMEN

>> Mondelin was founded in 1952 by Roger Mondelin. From the beginning, Mondelin's founder went to construction sites to find solutions for craftsmen.

>> Since then, the Mondelin Research & Development team has been on construction site every day.

All Mondelin products are developed and tested in partnership with craftsmen before production.

INSPIRED BY YOUR CRAFT SITES

MONDELIN STANDS FOR INNOVATION

>> The Mondelin brand stands for reliability. The products are constantly improved in order to adapt them to current needs and requirements on the construction sites.

>> Developments for craftsmen, their comfort and performance.

Above all, innovation is achieved through a strong relationship between the craftsman, his needs and the Mondelin R&D team.

TOOLS MADE IN OUR FACTORY IN AMBIERLE (FRANCE)

Our factory integrates 3 strategic activities

>> Metal work

Manufacture of our Levpano®, spreader, knives, Ergolame®, stepladders, platforms, trestles...

>> Plastic work

Manufacture of our buckets and troughs, sieves, floats, Projoint®, plastic or bi-material handles...

>> Wood work

Manufacture of our wooden floats, foam floats, wooden handles, platforms...

OUR COMMITMENTS TO THE ENVIRONNEMENT

- >> French manufacturing highlighted to limit transport and develop local employment.
- >> Our tools are designed for maximum durability. Moreover, our equipment is repairable and a large number of spare parts are available.
- >> We are PEFC and FSC™ certified for sustainable and responsible forest management.
Only products identified as such in this catalog are PEFC and FSC™ certified.
- >> 72% of our plastic raw material purchases come from recycled materials.
- >> We have invested in a machine to manufacture our own cardboard boxes, thus limiting the amount of plastic packaging we use.

GUARANTEED SAFETY

Safety system with two cables :

- >> 1 working cable
- >> 1 anti-fall safety cable

QUICK INSTALLATION

>> Ultra-fast Clip & Go system: quick locking and unlocking of arms and feet in a single movement.

USE THE ROTATION PLATE TO SWITCH FROM UNDER SLOPES OR VERTICAL MODE

>> The head rotates with a simple pin, so there's no need to dismantle it

RETRACTABLE PADS

>> They hold the plate, and when they reach the ceiling, they retract to wedge the plate against the previous one without any gap.

2 ANTI-SLIP PLATFORMS

on which you can climb to fix a board.

- >> Resistant to 150 kg - validated by Socotec

WEDGED AND PROTECTED PLATE

>> 8 non-slip pads provide excellent plate support

REMOTE HANDLE

>> The guide handle is separate, giving the user greater visibility and control.

>> This also avoids having your head under the Levpano® when descending.
